

NACR Names Pearce as Vice President of Services Development

Former S1 IT Solutions Executive to Grow and Diversify NACR Services

EAGAN, Minn., Sept. 26, 2012 /PRNewswire/ -- Gerry Pearce has been named Vice President of Services Development at NACR, a leading communications integration and services expert. He was formerly Microsoft Collaboration Practice Leader at S1 IT Solutions, a specialist in infrastructure, virtualization, and optimization of customer computing environments, in addition to leading the integration of unified communications (UC) solutions for NACR.

As one of the largest Avaya channel partners worldwide, NACR is a leading independent integrator of best-in-class communications, collaboration, and customer interaction solutions. The company delivers comprehensive sales, consultative, training, and technical support, as well as managed services, remote diagnostics and resolution, maintenance, refurbishment, and repairs.

In his new role as Vice President of Services Development at NACR, Pearce will identify opportunities to further grow and diversify the company's services business.

"Gerry has an impressive history of success in market development," said John F. Lyons, President and CEO of NACR. "Looking ahead, I see us broadening our services portfolio and expanding integration capabilities across a wide range of applications and solutions."

A graduate of Middlebury College (VT), Pearce has more than 18 years of domestic and international management experience in a variety of telecommunications and IT services organizations, including Vice President of Sales and Marketing at Pelham Sloane. As Managing Director of Europe and Vice President of Strategic Alliances for Net2Phone, Inc., based in Amsterdam, Netherlands, he led a team that delivered hosted and outsourced IP telephony solutions to cable operators, ISPs, and telecom providers. Prior to Net2Phone, Pearce spent 7 years with IT systems integrator Entex Information Services (now Siemens).

NACR works closely with the other ConvergeOne companies, Avaya, and other technology innovators to integrate the latest hardware, software, and applications into end-to-end multivendor solutions for diverse markets.
